

Hartford Weekly Herald.

WEDNESDAY, MARCH 15.

KENTUCKY CROP REPORT.
The condition of crops and live stock in the State on March 15, 1899.

Reports were received this month from 153 correspondents, representing 98 counties.

WHEAT.
The condition of the wheat crop December 1st, the date of the last report, was 60, compared with average years.

Answers to the question "Is wheat suffered from any cause during the winter?" 70, "No, it was not," 10, "Yes, it was," 10.

Heavy rains, particularly in the western section, is another source of no considerable damage.

The condition for the State as a whole, compared with average years, is 80, which is a low of 14 points since December 1st.

The three sections separately show the following average conditions of this date: Western, 70; central, 80; and eastern, 88.

The per cent of crops of 1898 still in the hands of farmers, estimated at 40. On March 1st, 1898, it was estimated that 17 per cent of preceding year was then in the hands of farmers.

On March 1st, 1897, a similar estimate showed 9 per cent of the crop in farmers' hands.

The price of wheat March 1st averages 60c. On March 1st, 1898, the average price was 60c, and March 1st, 1897, the price was 54c.

BARLEY.
The condition of the barley crop of 1898 still in farmers' hands give the amount of 40 per cent. On March 1st, 1898, the per cent of crop of preceding year in hands of farmers was 40.

LIVE STOCK.
The condition of the usually severe winter on live stock has been most beneficially mitigated by the abundance of feed. Still, among young stock no profit with shelter, the loss has been heavy and the suffering intense.

The heaviest loss has been with lambs and some pigs. Some lambs have been lost, and the loss of lambs 30 per cent of the crop. Recent experience should impress upon farmers the importance of providing ample shelter for stock during the months of bad weather.

The condition of the various classes of live stock averages as follows: Horses, 94; cattle, 90; sheep, 80; and hogs, 90. The conditions March 1st, 1898, were 90, 85, 80, and 85, respectively.

Replies to the question "Have you had any loss of stock?" show a notable decrease of the common disease, but the loss in the answer to the question and but 10 in the affirmative.

THE EFFECTS OF THE FERTILIZER LAW.
The period from February 10th to 14th will be long remembered for the phenomenal low temperature. Remarkable not only for the low temperature recorded, but also for the fact that this temperature was maintained.

During a period of some ten days, the mercury rose above zero only once. The minimum of 10 to 24 degrees below zero was reported during this time. In addition to the low and enduring of the cold, the cold injured the fruit crop in some places. Peaches will not only be a failure this year, but the apple crop is in jeopardy.

The same is true of cherries and plum trees in fact that the crops for several years to come will be affected. The same is true of the peach crop. The possible exception of some chestnuts. Peaches, though injured to some extent, still promise a fair yield.

Of the small fruits, raspberries have escaped injury to the injury to trees from heavy snow in some sections.

Of the small fruits, raspberries have escaped injury to the injury to trees from heavy snow in some sections.

Many dayberries like an ounce of salt to the pound of butter. Cows and horses should not be allowed in the same pasture.

Richer feed does not mean richer milk. If you do, you have not milked properly.

When the butter is poor, don't blame the cow. Blame your own want of skill.

Adding hot water to cream while churning is the worst of all practices. Warm milk from the cow does not churn properly.

Wash all milk vessels with cold water before using. Creams are usually better for farmers than butter.

Many farmers like an ounce of salt to the pound of butter. Cows and horses should not be allowed in the same pasture.

Richer feed does not mean richer milk. If you do, you have not milked properly.

When the butter is poor, don't blame the cow. Blame your own want of skill.

FAREWELL ADDRESS.

A Gem from the Pen of Tennessee's Popular Ex-Governor, Bob Taylor.

I am about to shuffle off this mortal coil of politics and fly away to the bosom of my native Tennessee.

Fortify the body against disease by T. J. L. Liver Pills, an alternative cure for sick headache, dyspepsia, sour stomach, malaria, constipation, jaundice, biliousness, and all kindred troubles.

"The Fly-Wheel of Life." Dr. T. J. L. Liver Pills are the fly-wheel of life. I shall ever be grateful for the accident that brought them to my notice.

As I had a new lease of life, I. Fairleigh, Platte Canon, Col. T. J. L. Liver Pills.
